TYPE APPROVAL CERTIFICATE

Certificate No.:	TA-26-0981
Date of issue:	2026-10-15
Valid until:	2031-10-14
Manufacturer:	Example Hydraulics Ltd.
Contact:	cert.team@example-hydraulics.test
Product:	Hydraulic cylinder
Type designation:	HC-100 series
Bore diameter:	40 - 250 mm
Rated pressure:	420 bar
Test pressure:	630 bar
Operating temperature:	-20 to +80 deg C
Rules:	Rules for Classification, Part 4 Chapter 7 (edition January 2025)
Application:	Steering gear, deck machinery and offshore cranes
Place of manufacture:	Plant 1 and Plant 2

Conditions of approval:

1. Each cylinder shall be pressure tested at 1.5 x rated pressure.
2. Material certificates shall be type 3.1 according to EN 10204.
3. Marking shall include type designation, serial number and rated pressure.
4. Type testing shall be repeated when design changes affect pressure-retaining parts.
